People's Movement to Simplify Life

A 4 Day Immersive Self Transformational Journey to

Feel the silence

Connect to Nature

Detox your body

In a pristine food forest with a private
waterfall and treehouses

Why Join Us?

We create a safe nurturing bubble for you to transform to your ideal self, where you can freely process your feelings, overcome your fears and find your balance in health, wealth and relations.

Experience the Transition from:

Loneliness to Liveliness

Scarcity to Abundance

Limited Life to Limitless Possibilities

How will you experience transformation?

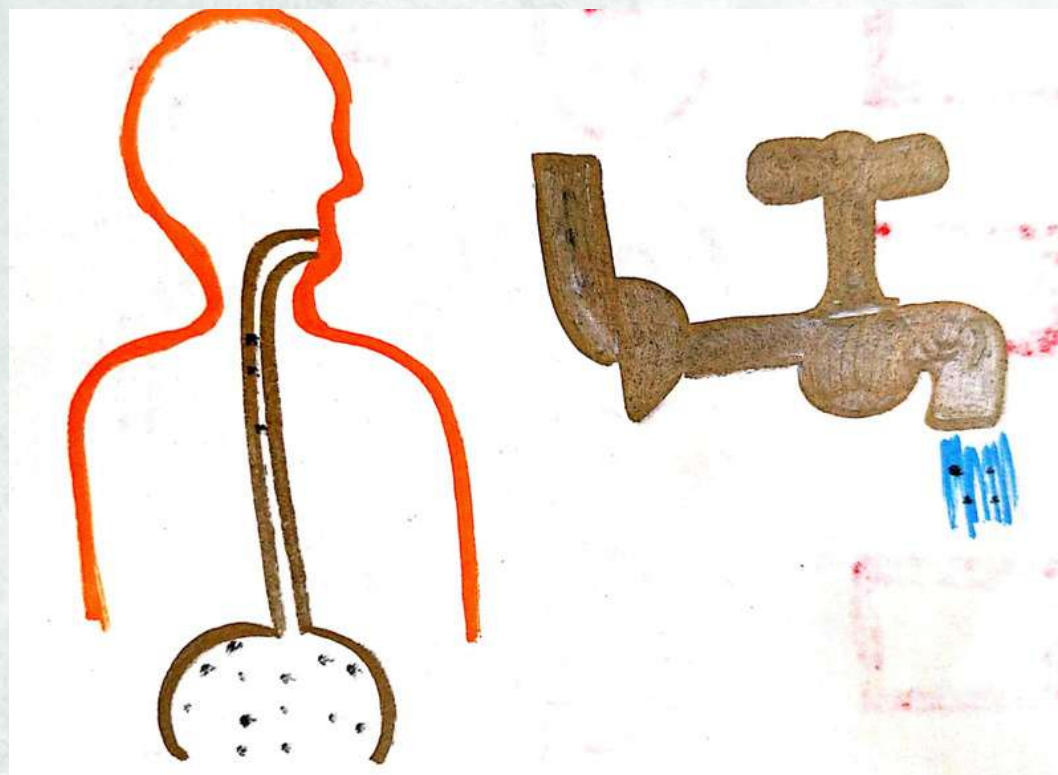

We love to poke your self-work.

We design an experience for you, which caters to awakening your senses and power to Self-observe, Surrender, Sense & Respond.

What we mainly are going to work with:

1. Vibrant Health

How Body Works? our body works just a like plumbing systems. To avoid blockages, we must detox the old stored and stuck energy and invite the new flow.

How Diseases Happen? Blockage by the old lurking food in Body Pipes hinders the fresh to flow.

Body itself heals body. Our body has an intelligence of its own and just needs the right process and procedure to heal itself.

2. Wealthy Living

We don't know where our money flows. We will only understand our relation with finance when we know what life we truly want ourselves to live. Wealthy Living is a question. Are you living your life the way you wish to live no matter your bank balance?

3.Lively Relations

Selfless love starts from selfish Self-love first. Stop pitying yourself and start loving yourself. You are not the victim, you are the main role of your movie called life. Be good to the person you have to spend your whole life with and that is you.

Accept your past, and your present, and watch your future rise and shine.

4. Sacred Union

What does it mean being a woman / man?
Are you looking for your soul-mate?

5. The New is Born

To invite new, the old must respectfully leave. All old habits that no longer serves you cannot go with you in this abundant fresh new version of yourself.

6. Flow Like River

River knows nothing, yet it knows how to flow. You don't need to know it all to live a life of content and joy.

We would love to show you how.

Acceptance, Sensitivity, Determination, Inclusiveness, Surrender

Our Experience

Koshaa is a mission-oriented entity with the aim to connect people to their inner nature. We love to create a space where you stop and watch yourself rise and shine.

lives touched
Since 2019

Our previous retreats have taken place in pristine forest locations of Goa, Baster, Balaghat, Auroville, Rishikesh etc. to the island of Corfu in Greece. We are recurring visitors at Angsana Wellness Resort in Corfu, Greece and at Swae, a Collective Intelligence Innovations Company in Vancouver, Canada.

Our team creates an ambience for you
to be at your best...

Sanya

An illuminator, creating safe space
for you to openly express yourself

Deepak

A self-observer, creating an ambience of
transformation to flourish best of your potential
